

Hydroprocess2025

15th International Conference on Process
Hydrometallurgy

NOVEMBER 4-6, 2025

SANTIAGO SHERATON HOTEL

**SUBMIT YOUR
ARTICLE**

by May 7, 2025

**Innovating and improving processes for a
clean and efficient hydrometallurgy**

AREAS OF INTEREST

New reagents, materials and technologies · Innovation and process improvement · Modeling and automatic process control · Base metal, precious metal, non-metallic elements, saline compounds, and rare earth hydrometallurgy · Leaching and bioleaching of sulfide minerals and concentrates · Fundamentals and operation of solvent extraction and ion exchange · Leaching and solvent extraction in chloride medium · Interfering elements control and impurity extraction · Hydrometallurgical recovery of minor elements from mining waste · Design and operation of solvent extraction and electrowinning circuits · Impurity control and quality of cathodes · Recycling of metals and alloys · Integral management of hydrometallurgical business

ARTICLES SUBMISSION

Professionals and academics are invited to submit a 3-6 pages article in English by **May 7, 2025**.

Articles should be uploaded using the form available at the Conference website.

Executive Committee

2025 CHAIR

Boris Medina

President, Minera El Abra,
Freeport-McMoRan, Chile

CO-ORGANIZERS

Pía Hernández

Chair, Department of
Chemical and Process
Engineering, Universidad
de Antofagasta, Chile

Lililian Velásquez

Academic, Department of
Mining Engineering, Pontificia
Universidad Católica de Chile

Wenyng Liu

Associate Professor,
Department of Materials
Engineering, The University
of British Columbia, Canada

PROGRAM DIRECTOR

Fernando Valenzuela

Academic, Faculty of
Pharmaceutical and Chemical
Sciences, Universidad de Chile

EXECUTIVE DIRECTOR

Carlos Barahona

General Manager,
Gecamin, Chile
