

safemining2026

4th International Conference on Safety
and Occupational Health in Mining

SEPTEMBER 1 - 3, 2026

SHERATON HOTEL, SANTIAGO, CHILE

EARLY BIRD

REGISTRATION

20% off until
July 15th

Safe Mining, Sustainable Future: Safety as
the Foundation for Operational Excellence

AREAS OF INTEREST

1. Fatality Risk Management, Critical Controls, and High-Potential Events
2. Leadership, Safety Culture, and Organizational Learning
3. Risk Management in Mining Operations: Open Pit, Underground, Processing and Hydrometallurgical Plants
4. Contractor Management: Governance, Standards, and Best Practices
5. Mental Health, Well-being, Fatigue, and Psychosocial Risks
6. Occupational Health, Occupational Diseases, and Emerging Exposures
7. Automation, Human-Machine Separation, Autonomous Equipment, and Remote Mining Operations
8. Artificial Intelligence Applied to Safety and Occupational Health
9. Competency Development for Safety (recruitment, education, training, immersive training, wearables, and other emerging technologies)
10. Reporting, Data Visualization, and Decision-Making in Occupational Health and Safety (OHS)

Executive Committee

2026 CHAIR

Benjamín Martinich

Vice President of Safety,
Occupational Health
and Environment,
Anglo American, Chile

CO-ORGANIZER

Marc Poulin

Professor, Cumming School
of Medicine, University of
Calgary, Canada

David Rubinos

Scientific Leader,
SMI-ICE Chile

Juan Pablo Vargas

Director, Department of
Mining Engineering,
Universidad de Santiago de
Chile

PROGRAM DIRECTOR

Carlos Cuello

Founder of 80/20 and VP
of the Safety Committee at
SONAMI, Chile

EXECUTIVE DIRECTOR

Carlos Barahona

General Manager,
Gecamin, Chile

Enquiries

COORDINATOR

Luciano Pérez
