Strategic and Integrated Mine Planning: Vision for a Sustainable Mining and the Future

AREAS OF INTEREST GEOMIN

Applied mineralogy • Geometallurgical characterization and modeling • Geotechnics and geomechanics • Geological modeling
• Sampling and geostatistics • Estimation of mineral resources and reserves • Geology for mine production

AREAS OF INTEREST MINEPLANNING

Optimization of equipment fleet and mine operations • Models and technologies for mine planning • Short- and long-term underground and open pit mine planning • Production planning and scheduling • Risk and uncertainty in mine plans • Environmental aspects in mining plans • Expansions and new projects

ABSTRACT SUBMISSION

Interested professionals are invited to submit a 300-600 word abstract of their paper in English or Spanish by December 4, 2026.

Articles should be uploaded using the **Authors Form** available at the conference website.
